Regional Event

January 5, 2021

(all times are in CST)

**1 - 2:15p Scientific talk about
Parasitoid Wasp CURE project by
Nathan Mortimer, PhD**

2:30 - 4p Student Poster Session

**3:30 - 4:15p Informal Q&A for
current & prospective GEP faculty**

We especially welcome faculty from
Community Colleges, MSIs, & PUIs teaching
courses in genetics, genomics,
bioinformatics, molecular biology, evolution,
or introductory biology.

**INTERESTED IN
IMPLEMENTING A
GENOMICS RESEARCH
EXPERIENCE &
ACTIVE LEARNING
IN YOUR
UNDERGRADUATE
CLASSES?**

This online session will introduce
faculty in **Texas and Oklahoma**
to GEP curriculum materials.

This session will feature a keynote speaker
and presentations by student participants.
Learn how to integrate curriculum into
existing courses, & to engage students in
scientific research through Course-based
Undergraduate Research Experiences
(CUREs) centered in bioinformatics &
genomics. Since the curriculum is
exclusively computer based, it's ideal for
virtual learning!

Visit <https://thegep.org/txok/> for
registration and more event information.
